

GDC Memorial College, Bahal (Bhiwani)

Department of psychology

2017-18(Odd)

Learning Objective & Outcomes

B.A (Psychology) 1st Semester

Subject: Introduction to Psychology

Subject Code : PY01

Learning Objective

1. To identify theoretical underpinnings of the major areas of psychology, including cognition (thought, memory, perception), learning, personality, social and environmental influences, development, and physiology of behaviour.
2. To explain different models of human behaviour based on science versus intuition or general ways of knowing
3. To recognize ways of pursuing questions in Psychology via discussion of theory and empirical...research.
4. To describe connections between knowledge gained in Psychology to everyday life

Learning Outcomes

After the completion of the course, Students will be able to

1. Demonstrate understanding of the major concepts, theoretical perspectives, empirical findings and historical trends in a number of the 'core' areas of psychology.
2. Understand, apply and evaluate basic research methods in psychology, including research design, data analysis and interpretation
3. Respect and use critical and creative thinking, sceptical enquiry, and the scientific approach to solve problems related to behaviour and mental processes
4. Use information in an ethical manner.

GDC Memorial College, Bahal (Bhiwani)

Department of psychology

2017-18(Even)

Learning Objective & Outcomes

B.A (Psychology) 2nd Semester

Subject: Experimental psychology

Subject Code : PY02

Learning Objective

1. Understand the rationale, strengths and limitations of the experimental method of gaining knowledge about mental and behavioral processes.
2. Learn how to design experimental and non-experimental studies
3. Learn to apply statistical techniques
4. Learn report writing using APA format, and learn how to present research orally
5. Know how to use the various methods used in experimental psychology, including those for humans, both instrument and non-instrument based

Learning Outcomes

After the completion of the course, Students will be able to

1. Knowledge Base: Demonstrate substantial knowledge of experimental psychology and the modes of inquiry pertinent to this field (Goal: Knowledge Base).
2. Critical Thinking: Accurately evaluate the strength of evidence in support of a claim as well as demonstrate an ability to recognize good vs. bad experimental designs, theories, and arguments in psychology
3. Creative Expression: Display creative accomplishments in artistic creation, performance, or production
4. Physical and Emotional Health: Identify healthy lifestyle practices and articulate effective strategies for enhancing them (Goal: Values and Character).
5. Diversity: Analyze topics and human experiences using categories such as race, ethnicity, gender, social status and disability (Goal: Values and Character).

Department of psychology

2017-18(Odd)

Learning Objective & Outcomes

B.A (Psychology) 3rd Semester

Subject: Social psychology

Subject Code : PY03

Learning Objective

1. The first is to expand your knowledge about social psychology and human behaviour.
2. Second, this class seeks to foster respect for human diversity, particularly with regard to matters of gender, race and ethnicity. Through class lectures, films, papers, and exams, there will be a focus on the nature of human diversity and attitudes toward diversity
3. understand the forces that create group differences in patterns of social behavior.
4. prejudice, aggression, attraction and intimacy, helping
5. How we perceive ourselves and others, what we believe, judgements we make, and our attitudes.

Learning Outcomes

After the completion of the course, Students will be able to

1. Describe and assess the basic psychological theories, principles, and concepts explaining social cognition, attitude formation, decision making, group processes, pro-social behavior, aggression, conformity/obedience and stereotyping/prejudice
2. Relate knowledge of theory as well as current and past research in social psychology to situations in everyday life such as interpersonal and group relations
3. Explain how human behaviour is influenced by such social factors as groups, authority figures, in-group bias, gender roles, cognitive dissonance, etc.
4. Relate major concepts and methods of the field to understand interpersonal and group relationships.

GDC Memorial College, Bahal (Bhiwani)

Department of psychology

2017-18(Even)

Learning Objective & Outcomes

B.A (Psychology) 4th Semester

Subject: Developmental psychology

Subject Code : PY04

Learning Objective

1. Discuss emotional and personality development in school-age children.
2. Describe changes in family relationships in the school-age years.
3. Identify changes in peer relationships among school-age children.
4. Characterize aspects of schooling in children's development in middle and late childhood.
5. Understand the major developmental periods from conception to death.

Learning Outcomes

After the completion of the course, Students will be able to

1. Identify the major issues, tasks and milestones of human development, such as physical, cognitive, social and emotional development throughout the lifespan.
2. Evaluate core concepts, strengths, and weaknesses of the major theories of life span development.
3. Evaluate how ethnicity, culture, class, and gender influence lifespan development.
4. Explain the impact of biological/genetic influences on physical growth, cognition and behavior.
5. Assess how current research supports and critiques the major theories of development.

Department of psychology

2017-18(Odd)

Learning Objective & Outcomes

B.A (Psychology) 5th Semester

Subject: Psychopathology psychology

Subject Code : PY05

Learning Objective

1. Conduct a diagnostic assessment.
2. Implement psychological interventions supported by the empirical literature.
3. Identify how individual differences and diversity impact psychological diagnosis and treatment.
4. Understand the APA code of ethics and how it is applied to clinical situations, and be able to critically evaluate ethical dilemmas in professional psychology.
5. Describe the value of professional consultation in general and as it is applied to specific clinical cases.

Learning Outcomes

After the completion of the course, Students will be able to

1. An improved understanding of the diversity and complexity of the causality of individual behavior.
2. Review signs and symptoms of selected psychological problems.
3. Examine current research on the theory treatment and prevention of mental illness
4. Demonstrate ethical behavior in regard to emerging relevant technologies applicable to psychology
5. Evaluate legal and ethical issues related to psychopathology.

GDC Memorial College, Bahal (BHiwani)

Department of psychology

2017-18(Even)

Learning Objective & Outcomes

B.A (Psychology) 6th Semester

Subject: Applied psychology

Subject Code : PY06

Learning Objective

1. To produce graduates with effective interpersonal skills who can work in a variety of practical settings.
2. To enable students to obtain the knowledge and skills necessary for immediate employment and/or graduate study in psychology and related areas.
3. To provide opportunities for students who wish to apply psychology training to employment in business and human service related organizations or to prepare for graduate programs in related areas.
4. To serve as a minor to complement other programs on campus.

Learning Outcomes

After the completion of the course, Students will be able to

1. Students will demonstrate an understanding of and be able to use major research methodologies in psychology, including design, data analysis, and interpretation
2. Students will demonstrate basic counseling
3. Students will demonstrate effective oral communication skills in various formats (e.g. group discussion, debate and lecture).
4. Graduates will possess the competencies required to perform entry level positions in business and human resource management.
5. Develop skills in communication through a variety of methods and media, demonstrating high standards of clarity and coherence
